#### UNITED STATES DEPARTMENT OF AGRICUDTURE, BUREAU OF CROP ESTIMATES! Washington, D. C.

No. 12.

September 15, 1919.

FOREIGN CROP AND LIVE STOCK REPORTS. Issued twice a month, for official and general use.

#### CONTENTS.

CROPSIN GENERAL: Canada, Ireland, FRUIT IN GENERAL: Canada, United Kingdom Mexico, Scotland, Switzerland, APPLES: Canada, United Kingdom Uganda Protectorate. ALMONDS: Spain.

WHEAT: Chosen, Roumania, Australia. \* RAISINS:

BARLEY: Chosen.
COTTON: Mexico.
SUGAR: Guatemala. ONION SEED: Spain.

2 OPIUM: Macedonia.

LIVE STOCK: Southern Rhodesia.

COFFEE: Brazil, Costa Rica, Guatemala: MEAT: Switzerland.

\* WAGES OF FARM LABOR: Denmark.

CHOFS IN GENERAL.

SASKATCHEWAN (CANADA)

CONDITION OF WHEAT AND OATS ON SEPTEMBER 3, 1919.

The state of the state of

Wheatt- In the southexstern district the yield runs from 8 to 18 bushels per acre, in the east-central, from 5 to 35 in the central district from 3 to 15. In the northern part of the Province the yield is expected to be lower than anticipated owing to rust.

Oats:- In the southeastern district the yields run from 20 to 45 bushels per acre, in the east-central district from 40 to 60. (Department of Agriculture of Saskatchewan).

ONTARIO (CANADA).

## CROP CONDITION SEPTEMBER 2, 1919,

Fall plowing being pushed vigorously. An increased area of <u>fall wheat</u> will likely be sown this year. Threshing of <u>spring grains</u> proceeding actively, but results are in many cases disappointing.

Potatoes so far dug have given light yields but the rains of the last three weeks have done good to the late varieties. Corn will approach on ... the whole, a fair general myield. (Ontatio Department of Agriculture.)

IRELAND.

CROP PROSPECTS ON AUGUST 4, 1919. From the Department of Agriculture for Ireland.

Winter wheat promises a good crop in qunatity and quality.

Spring wheat should be up to average.

Oats are less promising though an average crop may be obtained.

Barley and Rye promise an average crop.

Potatoes:- Early varieties were generally small and gave a light yield though the quality was good. Late varieties promise a fair to good

Flax has done only fairly well and may perhaps be somewhat below average. (The London Grain, Seed and Oil Reporter).

PIEDRAS MEGRAS (MEXICO).

### 1919 CROP OUTLOOK.

It is predicted that the wheat production will reach over a half million bushels and that of corn at least 250,000 bushels. Both of these crops are unusually large for the district. In general, the Piedras Negras Consular district is assured a wonderful harvest of all products for this year.

(Vice Consul William P. Blocker, July 7, 1919.) FOREIGN CROP AND LIVE STOCK REPORTS, - CONT: D. September 15, 1919.

No. 12.

CROPS IN GENERAL, - CONT. D.

SCOTLAND.

CONDITION OF CEREALS AND POTATOES ON AUGUST 1, 1919. Provisional estimates by the Board of Agriculture of Scotland.

Wheat:- General deficiency in yield is about 7 per cent below average. The decrease in area is 1,000 acres or 1.3 per cent as compared 13 in 1 with 1918.

Barley:- The deficiency in yield is about the same as that of wheat.

Oats:- The general deficiency is fully 10 per cent. The area decreased
137,000 acres or 11 per cent as compared with last year.

Potatoss:- Only a few districts promise an average production. Generally,
the deficiency ranges from 5 to 20 per cent. The area decreased by
14,000 acres, or 8.3 per cent compared with 1918. (London Grain Seed and Oil Reporter).

FOREIGN CROP AND LIVE STOCK REPORTS, -mCONTID. September 15, 1919,

WHEAT

CHOSEN .

#### WHEAT ESTIMATE FOR 1919.

On the basis of a survey made June 1, the authorities of the Government General estimate the production of wheat in 1919 at 7,584,440 busheds which is an increase of 518,758 bushels over the 1918 crop. (American Consulate General, Secul, June 26, 1919).

ROUMANIA:

OFO! MT! WHEAT CROP'IN'1919.

In a telegram to the "Temps" it is stated that according to official statistics the area under wheat in the pre-war territory of the country this year was 2,965,000 acres. In general, the harvest was good and the yield may be estimated at 18 bushels per acre, which gives a total production of over 53,000,000 bushels. Deducting from these figures about 14,000,000 bushels for seeding requirements next fall and 22,000,000 bushels for food requirements, it is very probable that about 18,000,000 bushels will be available for export, not including the available surplus in Bessarabia where the harvest was very good, (LeBulletin des Halles, Bourses, et Marches, August 20, 1919).

AUSTRALIA .

1 124 3 3 3

STOCKS OF WHEAT IN MUNE, 1919. The wheat stocks in June were 153,381,800 bushels. (Consul General J. I. Brittain, July 7, 1919)

4. 1

非非常的

CHOSEN.

# BARLEY ESTIMATE FOR 1919.

Authorities of the Government General estimate, on the basis of a survey made June 1, the production of barley in 1919 at 27,697,966 bushels. This is an increase of 1,375,196 bushels over the 1918 crop. (American Consulate General, Seoul, June 26, 1919).

COTTON.

MEXICALI DISTRICT, LOWER CALIFORNIA (MEXICO)

PROSPECTS FOR 1919 COTTON CROP. The area under cotton this year amounts to approximately 100,000 acres being the same as last year. The estimated crop is 60,000 standard bales of 500 pounds each, against 53,000 bales for last year. The arrival of 2,000 Chinese laborers from China, it is thought, will solve the labor question for picking the crop. (Consul Walter P. Boyle, August 11, 1919).

\* \* \* \* \*

GUATEMALA.

SUGAR PRODUCTION FOR 1917-18.

The sugar production for 1917-18 reached a total of 30,000,000 pounds. (Consul Lawton, June 10, 1919.)

COFFEE

GUATEMALA.

COFFEE CROP IN 1918-196

The 1918-19 crop is estimated at about 110,000,000 pounds of cleaned coffee. (Consul Lawton, June 10, 1919).

No. 12.

FOREIGN CROP AND LIVE STOCK REPORTS, - CONT'D. September.15, 1919.

COFFEE, - CONT'D.

BRAZII.

## ESTIMATED PRODUCTION OF COFFEE IN 1919-20.

The Brazilian Ministry of Agriculture estimates the production of coffee for the States of Sao Paulo, Minas Geraes, and Parana in 1919-20 at 505,129,000 pounds. This very small crop is due to the frost during June, 1918. (Vice Consul Augustus I. Hasskarl, Rio de Hanerio, July 28, 1919).

COSTA RICA+

#### COFFEE CROP FOR THE COMING SEASON.

One of the large coffee growers recently estimated the crop for the coming season at 40,000,000 pounds. Picking has begun on the lower areas on the Atlantic side. (Consul B. F. Chase, San Jose, Augsut 8, 1919).

FRUIT IN GENERAL.

1.0 2 man 1 4 4 4

ONTARIO (CANADA).

## OUTLOOK FOR 1919 FRUIT CROP.

Peaches: - The yield in the Niagara Peninsula will not exceed 50 per cent of normal. In St. Catherines it will not be more than 30, per cent. Sweet cherries were a light crop.
Plum crop will not exceed 50 per cent of normal. Pears are very light, about 30 per cent, with few exceptions. Grapes should be a full crop from present indications. (Consul Felix S. S. Johnson, August 21, 1919).

UNITED KINGDOM.

FRUIT PROSPECTS FOR 1919 . . . From the Weekly Bulletin, Canadian Department of T rade and Commerce.

In spite of all adverse condition the apple crop will be fully equal, or rather better than average, much superior to that of 1918, the Strawberries were seriously affected by drought. Other small fruits have been fair, Cherries good. Plums generally somewhat under average. Pears, though not up to the average are very much better than in 1918.

(Commerce Reports, September 3, 1919).

APPLES.

NOVA SCOTIA (CANADA):

## The second secon PRODUCTION OF APPLES.

bbls Year Year <u>bbls</u> 1914 ..... 980,520 1915 ..... 615,882 1916 ..... 691, 409 1917 ..... 744, 730 1918 ..... 809, 601

The above figures do not include apples used for home consumption or those grown in some of the outlying districts of the province. (The Agricultural Gazette of Canada).

ALMOHDS.

MALAGA (SPAIN).

#### FORECAST OF THE ALMOND CROP.

It is estimated that the production of almonds will be average. Stocks from last year are very small. (Consul Louis G. Drefus, Jr., Malaga, July 14, 1919). -Commerce Reports.

### FOREIGN CROP AND LIVE STOCK REPORTS. - CONT'D.

No. 12.

September 15, 1919.

#### RAISINS.

MALAGA (SPAIN).

## FORECAST OF THE MUSCATEL RAISIN CROP.

Forecasts of the muscatel raisin crop places it at 22,000,000 pounds, which is about 20 per cent greater than the yield of the last year. The quantity is reported to be good, but many forecasts as to quality or quantity made at this time are contingent upon weather conditions in July and August. Last year's stocks are practically exhausted.

(Consul Louis G. Dreifus, Jr., Malaga, July 14, 1919). - Commerce Reports.

#### ONION SEFD.

CANARY ISLANDS (SPAIN).

#### ONION SEED CROP IN 1919.

Despite the unanimous opinion of dealers that the onion seed crop this year will be approximately 30,000 pounds, the Consulate has invoiced for 70,000 pounds. Immense quantities remaining from last year should be remembered in this connection. (Consul George K. Stiles, Teneriffe, Aug. 26, 1919)

### OPIUM.

MACEDONIA.

#### ESTIMATED OPIUM PRODUCTION IN 1919.

Large dealers predict a reduction in the opium crop this year. The summarized estimates are as follows:
